

Licenses & Certificate

Our Foundation

ORB Corporate Sdn Bhd

ORB Corporate Sdn. Bhd. was founded and established in 2011 by Dato' Ivan Lim. It specializes in health and cosmetic products ("OEM") for major Multi-Level Marketing ("MLM") firms across South East Asia and Asia. Its HQ and factory are situated in Puchong, Selangor, Malaysia.

Through its dedicated research team and extensive experience in the OEM industry for health and cosmetic products, ORB Corporate Sdn. Bhd. produces a wide range of products across Asia, such as instant coffee, energy drinks, cosmetic collagen drinks and juices with healthy proponents of slimming effect and anti-aging. It is recognized and certified by GMP, MeSTI, HALAL, HACCP and ISO 22000-2005.

ORB Corporate Sdn. Bhd. is also the parent company for Xpaging International. The latest products produced by this company will be featured in the XPaging app, under the name Nutri6. It can be found under the Network section of the XPaging app. Nutri6 will provide health support, networking and multilevel E-commerce support to all its consumers.

CONNECTING YOU INTO NATURE LIFE

Product Liability

ORB Corporate Sdn Bhd

Product Liability Insurance is designed to indemnify the manufacturer or supplier of the 'defective' product against losses resulting in bodily injury or property damage arising from its use, in the event the victim enforces his legal rights.

NUTRI6 provides product liability insurance for its products (Nutri B, Nutri D, and Nutri Tech). However, this insurance may not cover all situations and depends on whether the product is defective, improper use of the product or fault in the application. NUTRI6's insurance coverage does cover injury or damage where a faulty product is involved but does not cover the careless or negligent application or improper use of a product.
